Pure sine wave inverter

Conversion efficiency 93%+

The same waveform as mains power, no harm to electrical appliances

A graph comparing a square wave (labeled 'Others') and a smooth sine wave (labeled 'FDIK-A10'). The sine wave is shown to be identical in shape to a standard mains power waveform.

FDIK-A10

Others

A small image of the physical inverter device, showing its black casing and blue/white branding.

Adapt to different types of batteries

- LI
- SLD
- GEL
- FLD
- AGM

A photograph of the inverter sitting on a wooden table outdoors. A battery is connected to the back, and a power cord is plugged into the front. A water bottle and some papers are also on the table.
